Dear Mr. Fish:

The U.S. Environmental Protection Agency (EPA), through its contractor, URS Consultants, Inc., has completed the site investigation (SI) of the Avery Railroad Dump and Roundhouse site. A copy of the report is enclosed.

Based on this SI and other pertinent information, EPA finds that additional investigation may be warranted. URS' recommendations, with which EPA concurs, are outlined on the recommendation memorandum page of this report. A copy of this report is being forwarded to EPA's Removal Program for review and consideration.

If you have any questions, I can be reached at (206)553-0323.

Sincerely,

Monica Rolluda
Site Assessment Manager
Superfund Response & Investigations Branch
